## Jorge Cadenas

### Technology Consultant

Jorge Cadenas is a Technology Consultant with TrialGraphix, with over 10 years in the litigation consulting field. He has supported trial teams before judges and juries in many venues across the country, at both the state and federal level.

In a previous role, Jorge was a Manager in the Presentation Technology Support Department where he developed training materials on new equipment, trained presentation technology personnel and managed technology inventory. He worked for several years as a Presentation Systems Administrator, gaining critical knowledge of IT specific presentation technology as it relates to media compatibility of the technologies used in courtroom presentations, database management, network installation and troubleshooting.

Jorge earned his Bachelor of Computer Science degree from Baker College in Flint, MI as well as his B.S. in Information Technology from Florida International University. He received his A.A. degree from Miami Dade Community college with an emphasis in computer science.
