## Jorge Cadenas

### Director of Technology

Jorge Cadenas has been supporting trial teams for over 23 years and has expertise in several areas including project management, presentation and information technology, multimedia production, network systems, software development and graphics design.

Mr. Cadenas consults with clients and project managers to recommend strategic and appropriate technology as well as the design of custom solutions for the most complex scenarios. With his 23 years of experience in the litigation field, Mr. Cadenas has assisted legal teams in the effective utilization of technology both live and in virtual proceedings.

Mr. Cadenas expertise incorporates many areas of litigation, such as jury trials, mock exercises, bench trials, hearings, international arbitrations and mediations. He has also assisted trial teams with their onsite war-room setups and production needs thanks to his extensive network engineering background and logistical expertise.

Throughout his career, Mr. Cadenas has assisted many presentations from the most innovative companies such as Microsoft Corp., Apple Inc., Facebook, Samsung Technology, among others. Mr. Cadenas was part of the Oil Spill Commission legal support team that assisted with the presentation of the BP Deep Water Horizon in the Gulf of Mexico, and was responsible for providing the technology during the televised presentation to the committee in Washington, D.C.

During his early years, Mr. Cadenas was Manager of the Trial Technology Support Department at TrialGraphix, where he supported over 600 projects a year with presentation technology equipment from a vast inventory that he managed. He was responsible for training all Technology Consultants and assisted them during their presentation projects. Mr. Cadenas was an integral part during the expansion of TrialGraphix and its services; and he developed many systems in place that have become the standard practice by many legal professionals both from a project management and workflow production.

Mr. Cadenas earned his Bachelor of Computer Science degree from Baker College in Flint, MI as well as his Associate of Science degree from Miami Dade College with an emphasis in Computer Science. He received a full scholarship from Miami Dade College based on his High School academic performance and for being a leader in his community. Mr. Cadenas continues to help his community by helping many competitive soccer teams. He assists in the team managing duties and coaching youth players. Mr. Cadenas is a certified US Youth Soccer Coach, holds many titles and league championships across south Florida, and he is fluent in both English and Spanish.
